Fagron Advanced Derma

Leading advanced dermatological care

Please refer to the Compounding Matters database at fagron.us for more formulations or learn more about FACTS (Fagron Academy Compounding Technical Services) @ fagronacademy.us/facts.

Fagron Advanced Derma vehicles allow for stable preparations with a broad range of active pharmaceutical ingredients (APIs) and dermaceutical ingredients (DCIs). Combinations that have been scientifically studied for chemical, physical and microbiological stability are included in this Fagron Advanced Derma compatibility table.

The compatibility table, Compounding Matters formulations database, and FACTS (Fagron Academy Compounding Technical Services) formulations database support health professionals in exploring possible treatment options. APIs or DCIs that are not included in these resources can also form elegant, stable compounded preparations that help to improve patient comfort and compliance. When no study data is available for a specific API or DCI, it is recommended that the pharmacist assigns an appropriate expiry date based on internal protocols, risk analysis or guidelines from accredited pharmacopoeias.

Disclaimer: Above are examples of some commonly prescribed formulations across a diverse array of specialties, and is not meant to encourage the use of any formula contained within. Fagron, Inc., its owners, officers, agents, affiliates and employees make no representation or warranty whatsoever with respect to this Example Formula. Customer understands and agrees that Fagron, Inc., its owners, officers, agents, affiliates and employees shall not be responsible for any claims, actions, liabilities, losses, expenses, damages, judgment or costs arising directly or indirectly or related in any way to any actual or alleged injury to any person (including death) resulting or claimed to result wholly or in part from any formulation that is the same or similar to any Example Formula. No compounded medication is reviewed by the FDA for safety or efficacy. References available upon request.
