

Lipopen Plus Base

Transdermal cream base

Lipopen Plus Base

Lipopen Plus Base provides a lipophilic medium in which to deliver active pharmaceutical agents through the skin. This creamy, viscous base is specially formulated to withstand high API percentages, salts and have broad pH stability. Lipopen Plus is an ideal choice when enhanced transdermal absorption is needed to deliver high concentrations of API.

Benefits of Lipopen Plus Base

- Rich and creamy texture
- pH and salt stable
- Quick and easy to formulate

Fagron North America's Compounding Essentials Division

Providing pharmacists in the United States with high quality compounding products and solutions.

Fagron North America's Compounding Essentials Division (Fagron, Inc., B&B Pharmaceuticals, Inc. and Fagron Academy) have over 60 years of combined experience in serving the compounding industry. We specialize in offering over 65 unique compounding bases and vehicles. Additionally, we offer over 800 active pharmaceutical ingredients, equipment, supplies and first rate contemporary compounding education and technical support for compounding pharmacies. Fagron's dedication to quality is achieved through our extensive vendor validation program and commitment to only sourcing from FDA validated suppliers.
