DESCRIPTION	<p>Lipovan[®] cream base is an oil-in-water, plant-based emulsion containing highly enriched liposomes which provide emollient properties that hydrate the skin, making it softer and more amenable to treatment. Its pro-liposomal ingredients are specially formulated to assist penetration of high levels of active pharmaceutical ingredients for optimal transdermal drug delivery.</p> <p>Lipophilic and hydrophilic APIs can be incorporated into Lipovan[®] cream base. It contains a high percentage of unsaturated soybean phospholipids in a hydrophilic medium for transdermal application. It is water-washable and free of fragrance and parabens.</p>												
CATEGORY	Oil-in-water vanishing cream containing refined pro-liposomal ingredients for drug delivery and penetration enhancement.
