

Phytobase® Cream Base

Technical Data Sheet – Phytobase® Cream Base

802156	51552-1205-06	500 GM
804746	51552-1205-08	2.5 KG
805906	51552-1205-07	10 KG

DESCRIPTION	<p>Phytobase® cream base is an oil-in-water, off-white vanishing cream with an oil phase containing Natural Oil Bodies called Phytosomes. It uses natural emulsifiers for a light feel, making it an ideal face and body cream for most skin types.</p> <p>Phytosomes contain known liposomal transdermal penetration enhancers for systemic delivery of active pharmaceutical ingredients when applied to normal skin.</p> <p>Phytobase® cream base is truly unique; all oils included in its formulation are from plant sources. It is free of fragrance, petrolatum, parabens, and petrochemicals.</p>						
CATEGORY	Natural self-emulsifying compounding cream to use in formulations for oil soluble ingredients which require liposomal penetration enhancement and elegance. Often used for hormones.
